

# **A Demographic profile of Ward 50 within the Nelson Mandela Bay Area**

**By: M Smit**

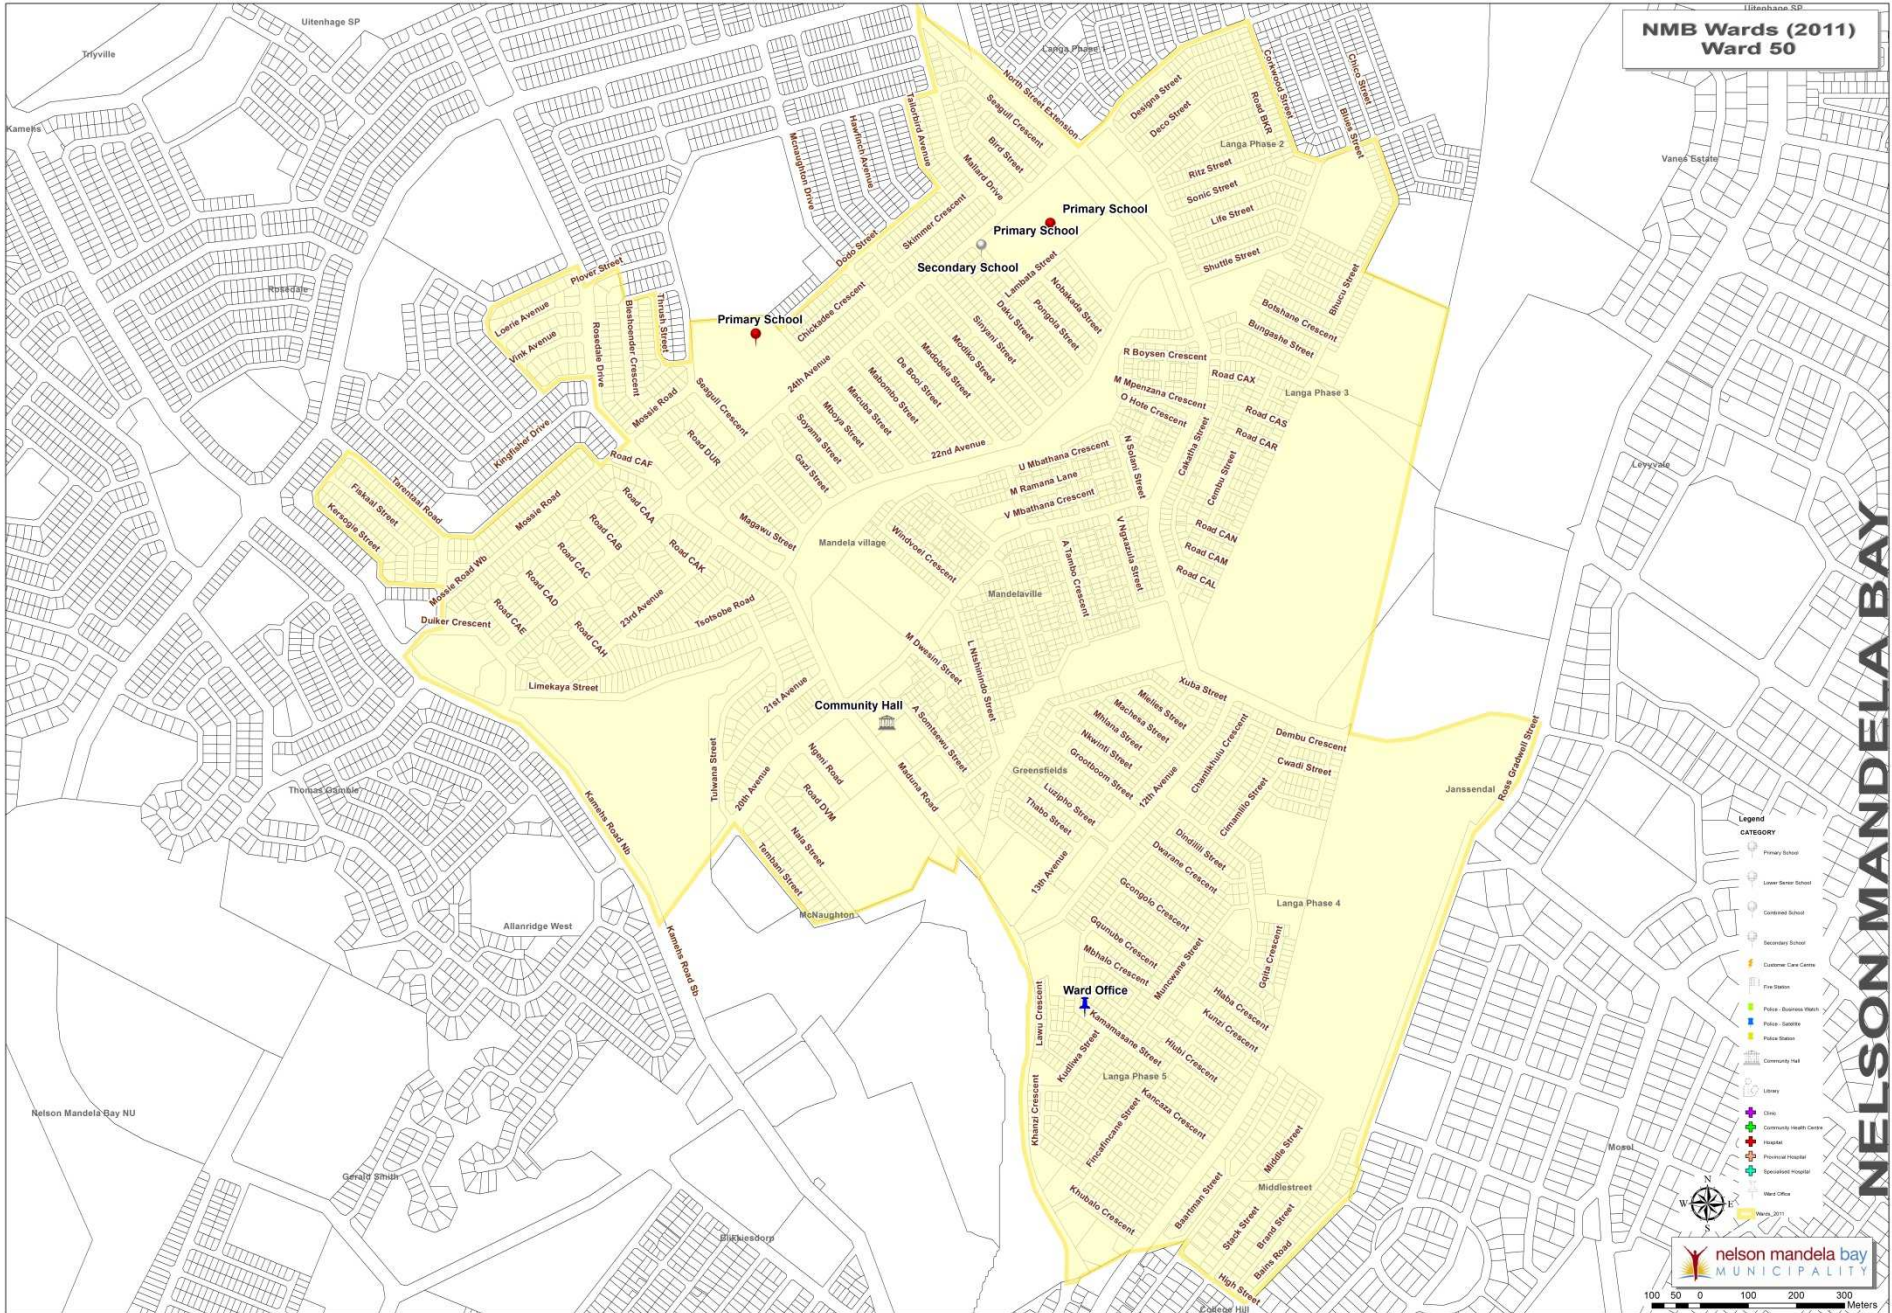

**Corporate GIS**

**04 September 2013**

**Abstract:**

The information and tables that follow are based upon the Census 2011 information as obtained from Statistics SA (StatsSA).

This information can be used and quoted as the official information for the ward number listed whilst giving credit to StatsSA and the writer. Key results for the ward, in addition to the tables extracted are obtained within the report. The only additions to the tables extracted from StatsSA are the totals rows and columns with percentages. The format was inspired by City of Cape Town Ward reports generated by the Strategic Development Information and GIS Department.

Statistics South Africa (StatsSA) defined a household as a group of people who live together, and provide jointly with food and other essentials for living or alternatively, a single person who lives alone.

Please Note: When Statistics South Africa calculated the true population, there were omissions and duplicate counts encountered during the enumeration process which needed to be rectified. This resulted in small variations in the totals for populations and households within the tables located in this report. These variations are not significant however, they will account for the varying totals.
