

A Demographic profile of Ward 51 within the Nelson Mandela Bay Area

By: M Smit

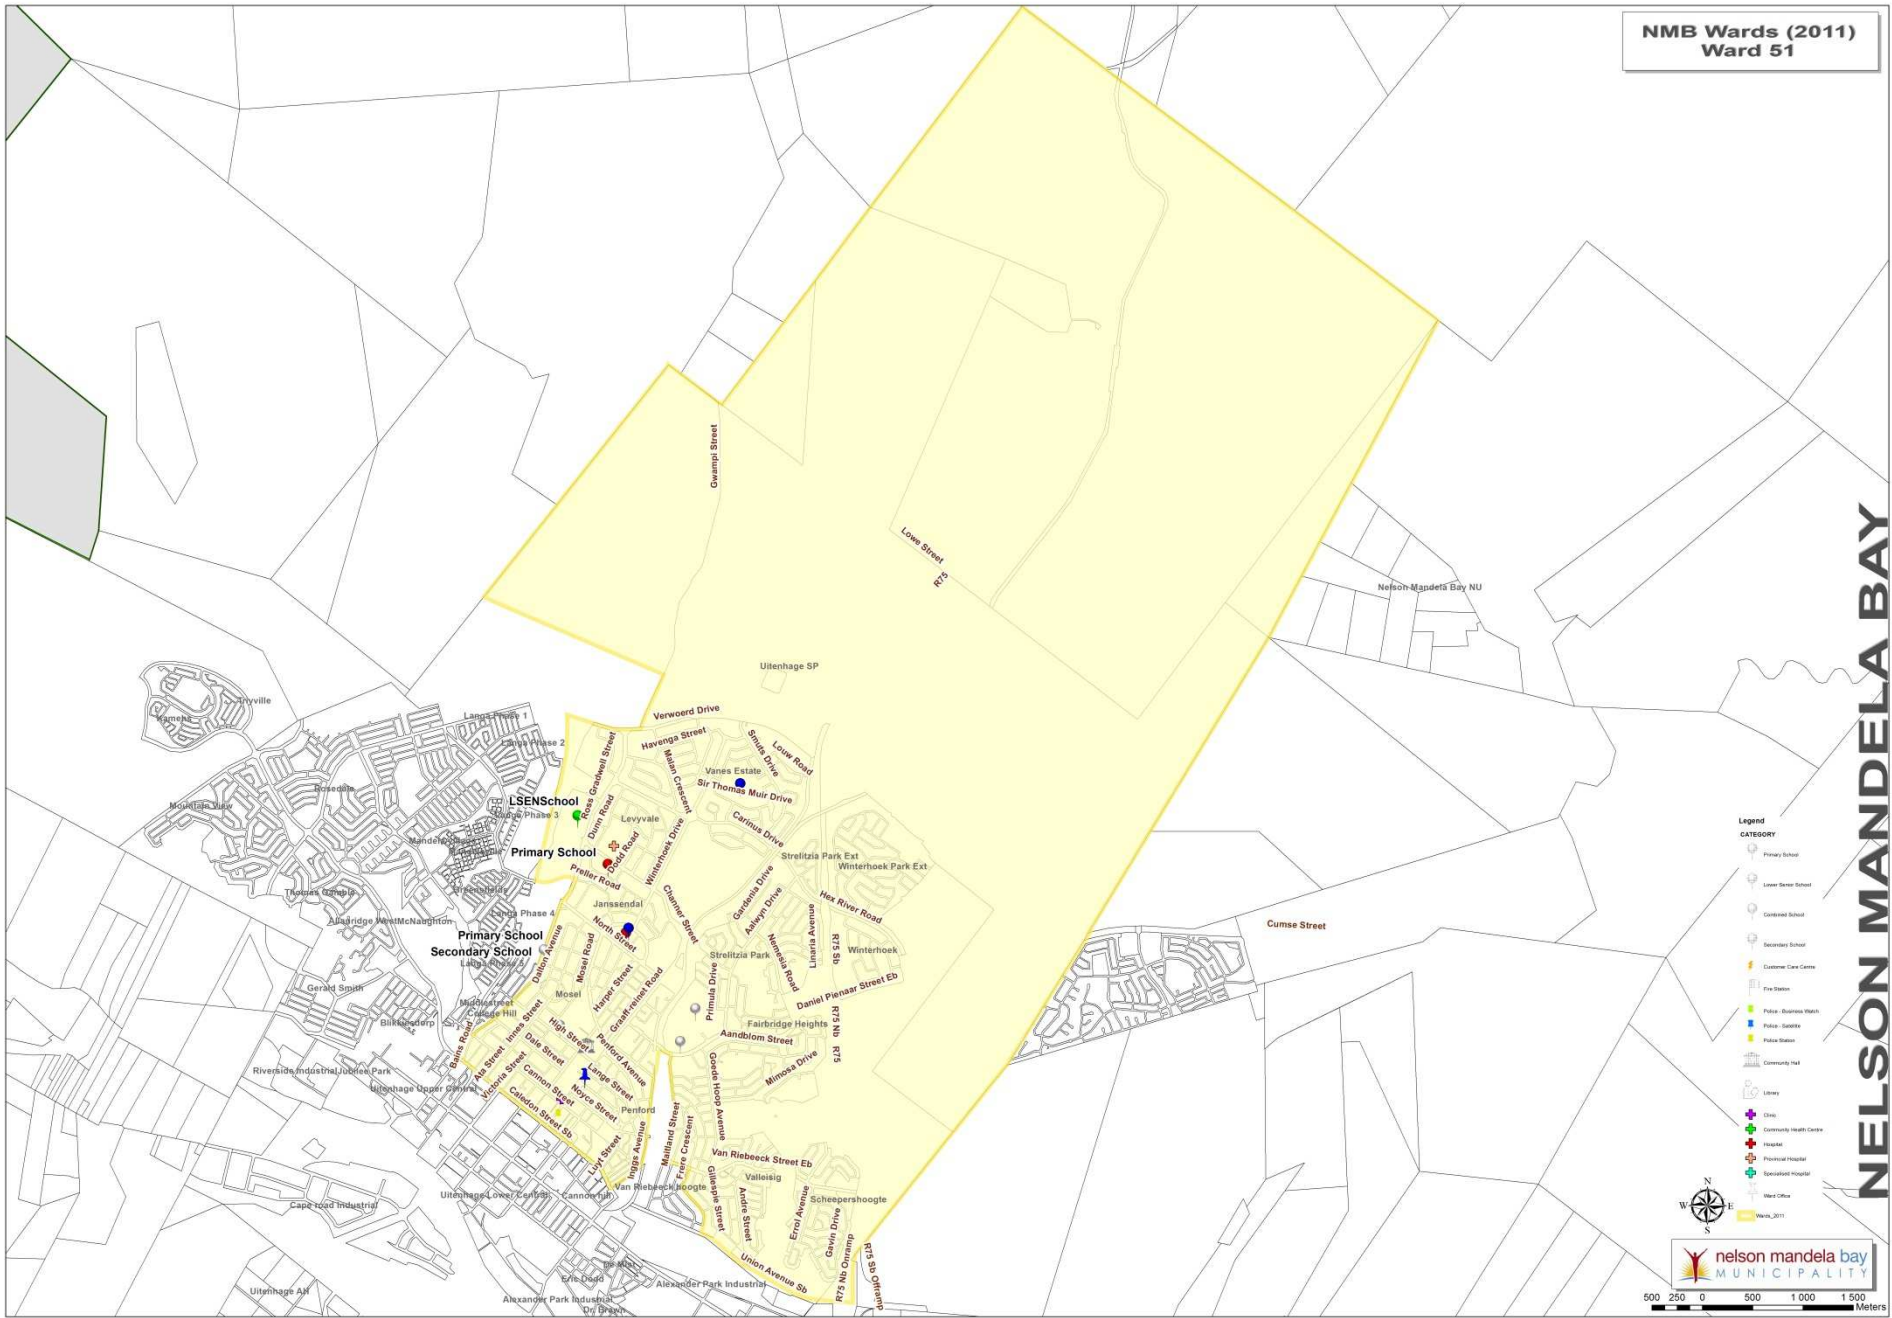

Corporate GIS

04 September 2013

Abstract:

The information and tables that follow are based upon the Census 2011 information as obtained from Statistics SA (StatsSA).

This information can be used and quoted as the official information for the ward number listed whilst giving credit to StatsSA and the writer. Key results for the ward, in addition to the tables extracted are obtained within the report. The only additions to the tables extracted from StatsSA are the totals rows and columns with percentages. The format was inspired by City of Cape Town Ward reports generated by the Strategic Development Information and GIS Department.

NELSON MANDELA BAY

Ward 51: Description

Ward 51 has a geographical area of 64.34km² and the Census 2011 registered this ward as having a total population of 24 245. This ward has a slightly higher female population than male with 49% males and 51% females. A total of 63% are Whites and the main language used in the households is Afrikaans spoken by 58% of the population.

This ward has the following community services:

- 1x Community Halls
- 1x Police Station
- 3x Primary Schools
- 2x Combined school
- 1x Lower Secondary School
- 4x Secondary School
- 1x Clinics
- 1x Public Hospital
- 1x Ward Office

Key Results for Ward 51:

- The population is predominantly White.
- The population consist only slightly more of females
- 54% of the population are aged between 25 -64
- 55% of the population 20 years of age or older have completed Grade 12 or higher.
- 56% of the working population (15 – 64) is employed.
- 6% are unemployed or discouraged work-seeker.
- 23% of households have a monthly income of R3183 or less.
- 100% of the Households (7686) are located within the urban area.
- 99% Live in formal dwellings
- The average household size consists of 3.15 people.
- 99% of households have access to piped (tap) water inside their dwelling.
- 99% of households have access to a flush toilet connected to the public sewer system.
- 97% of households have their refuse removed at least once a week.
- 91% of households have access to electricity for cooking in their dwelling.
- 99% of households have access to electricity for lighting in their dwelling.
- 81% of households have access to electricity for heating in their dwelling.

Statistics South Africa (StatsSA) defined a household as a group of people who live together, and provide jointly with food and other essentials for living or alternatively, a single person who lives alone.

Please Note: When Statistics South Africa calculated the true population, there were omissions and duplicate counts encountered during the enumeration process which needed to be rectified. This resulted in small variations in the totals for populations and households within the tables located in this report. These variations are not significant however, they will account for the varying totals.
