7.5.3 Overall rating

An overall rating is calculated by using the applicable assessment-rating calculator (see Section D). Such overall rating represents the outcome of the performance appraisal.

7.6.1 The assessment of the performance of the Employee shall be based on the following rating scale for KPAs and competencies outlined in the Competency Framework Structure:

Level	Terminology	Description	Rating

The appraisal indicates that the Employee has achieved above fully effective results against all performance criteria and indicators, as specified in the Performance Agreement and Performance Plan and has maintained this in all areas of responsibility throughout the year.					
4	Performance significantly above expectations	Performance is significantly higher than the standard expected in the job. The appraisal indicates that the Employee has achieved above fully effective results against more than half of the performance criteria and indicators per KPA and fully achieved all others throughout the year.					
3	Performance fully effective	Performance fully meets the standards expected in all areas of the position. The appraisal indicates that the Employee has fully achieved effective results against all significant performance criteria and indicators, as specified in the Performance Agreement and Performance Plan.					

 M¹

 LB

Level	Terminology	Description	Rating				
			1	2	3	4	5
2	Performance not fully effective	Performance is below the standard required for the job in key areas. Performance meets some of the standards expected for the job. The review/assessment indicates that the Employee has achieved below fully effective results against more than half the key performance criteria and indicators, as specified in the Performance Agreement and Performance Plan.

The Employee has failed to demonstrate the commitment or ability to bring performance up to the level expected in the job, despite management efforts to encourage improvement.					

7.6.2 During any quarterly performance review: -

- (a) An overall score of 100% or above, indicates either performance fully meets the standards expected in all areas for the position / significantly above expectations / outstanding performance and does not require remedial action
- (b) An overall score of 70% - 99%, indicates performance not fully effective
- (c) An overall score below 70%, indicates unacceptable performance and gives effect to paragraph 11.2

66	C83 (LED)	6	Number of building plans approved after first review	The building plan review process is a coordinated process for the review of projects and building plans which generally result in the issuance of a building permit. The process coordinates the review of staff representatives typically from Planning, Building, Engineering and Fire functions. SECTION C1 - COMPETENCY FRAMEWORK

In the below Competency Framework "core competencies" are competencies that cut across all levels of work in a municipality and enhance contextualised leadership that guarantees service delivery impact, and "leading competencies" means competencies that are required to develop clear institutional strategy, initiate, drive and implement programs to achieve long-term sustainable and measurable service delivery performance results.

This competency framework replaces regulation 26(8) of the Local Government Municipal Performance Regulations for Municipal Managers and Managers directly accountable to Municipal Managers 2006.

A person appointed as a senior manager must have the competencies as set out in this framework.

The competency framework consists of six leading competencies which comprise of twenty (20) driving competencies that communicate what is expected for effective performance in local government.

The competency framework further involves six (6) core competencies that act as drivers to ensure that the leading competencies are executed at an optimal level.

There is no hierarchical connotation to the structure and all competencies are essential to the role of a senior manager to influence high performance. All competencies must therefore be considered as measurable and critical in assessing the level of a senior manager's performance.

The competency framework is underscored by four (4) achievement levels that act as benchmark and minimum requirements for other human capital interventions, which are: recruitment and selection, learning and development, succession planning, and promotion.

The competencies that appear in the competency framework are detailed as follows -

(a) Performance Calculations and Ratings

At the end of each performance review cycle, the employee will be assessed in terms of the required targets reflected on his / her respective performance plan. The following elements are essential in determining performance levels:

(b) Performance Weighting

Weightings allow emphasis to be placed on KPAs and key objectives that carry more importance and/or take more time. Every KPA in the performance agreement or plan must be assigned a weighting. The total of the weightings on each of the two components of the performance plan must add up to 100.

The purpose of the weighting is to enable Council to ensure performance of the key objectives with the highest strategic importance, and to reward outstanding performance accordingly.

(c) Performance Rating

The rating can be defined as the level of achievement of the targets set for a specific key performance area. The Nelson Mandela Bay Municipality uses the five-point system for rating performance as contained in the performance agreement (see Clause 7.6)

(d) Score

The score represents the product of the average rates of all the targets for each key performance indicator, and the weight for the respective key performance area; e.g. if the average rate is 3 and the weighting is 15, then the weighted score = 3 X 15, which equals 45.

(e) Total Weighted Score and Performance Percentage

The total score is the sum of the weighted scores for all the key performance areas and competency requirements for a specific position. Therefore by adding all the weighted scores, one arrives at a figure representing the total weighted score.
