Nelson Mandela Bay Municipality**Specification for hiring of skip bins at municipal wastewater treatment works****Scope of work:**

- Removal of wastewater treatment grit, sand, sludge and screenings for disposal at Koedoeskloof landfill site as and when required.
- Hiring of waste disposal skip bins with minimum capacity being 6 cubic meters in volume per month. Ensuring skip bins fit under all installed chutes at each wastewater treatment works.
- The service provider shall ensure before leaving the treatment works site, that there is no material on the outside of the skip bins or on the vehicle that may fall off while the vehicle is being driven on public or on-site roads.
- If any grit, sand, sludge and screenings fall on the road, the contractor must immediately clean up such spillage and remove it to the licensed disposal site. If the service provider does not remove such material within a day, then the municipality may remove such material with its own staff and equipment and shall be entitled to recover all costs from the service provider.
- In case that the disposal site has been closed (e.g. due to weather conditions), service provider is required to store a full skip bin(s) on works site. An empty replacement skip bin will need to be provided.
- The full waste disposal skip bins must be removed within 24 hours of the call by a designated municipal official of each WWTW listed below to Koedoeskloof landfill site.
- The service provider shall always have available resources to execute service required. This is to ensure continuous operations of the wastewater treatment works. The municipality will not accept a poor service.
- The service will be as and when required until 30 June 2027 from issuance of first official municipal order or value threshold has been met or contract is put in place, which ever occurs first.

WWTW	Approximate number skip bins removed per month	Number of skip bins to be placed on site (6m3)
