Supply and Deliver Road signage and equipment

1.Scope

NMBM invites suitably qualified contractors to tender for the manufacture, supply and delivery of specified road traffic signage and accessories as specified.

2. Applicable Standards and Specifications

All materials, workmanship, and installation methods shall comply with the latest editions of:
South African Road Traffic Signs Manual Vol. 2 Chapter 15(SARTSM / SADC-RTSM)

Materials Specifications

Sign Face Material

Sign faces shall:
Be manufactured from chromadek sheeting not less than 1.4 mm thick unless otherwise specified
Have smooth, corrosion-resistant surfaces
Be free from defects, warping, dents, and scratches

Reflective Sheeting

Retroreflective sheeting shall comply with SANS 1519.
Shall have a background reflective sheeting of class 3 engineering grade, with letters, borders and symbols in matt black or class 3 engineering grade.

Colours and Symbols

Colours, legends, arrows, and symbols shall strictly conform to SARTSM requirements.
No deviations shall be permitted without written approval.

Manufacture of Signs

All signs shall:
Be manufactured using approved templates
Include rounded corners unless otherwise specified
Have clean-cut edges and uniform finishes
Be free from air bubbles, wrinkles, and delamination
Be produced using UV-resistant inks and overlays
All sign coding shall comply with SARTSM numbering conventions.
All signs to be securely mounted to sign supports.

Fasteners and Fittings

All bolts, nuts, washers, and brackets shall be hot dip galvanised
Stainless steel fittings may be used where specified
No untreated steel components shall be permitted

Sign Supports

Supports for all signage shall be manufactured from galvanised 25mm x 25mm square tubing with a 2mm wall thickness.

3. Quality Assurance
The contractor shall implement a quality control system including:
Material certificates for the chromadek sheeting
Reflectivity testing
Dimensional inspections
The NMBM reserves the right to:
Reject non-compliant materials

4. Maintenance and Defects Liability
The contractor shall maintain all installed signage during the defect's liability period.
Defects include:
Peeling reflective sheeting
Corrosion
Fading
Structural instability
Minimum warranty periods:
Reflective sheeting: 7–12 years depending on class
Structural components: 5 years

5. All rates shall include:
Labour
Materials
Transport

6. Minimum Requirements

Correct, fully completed price document to be uploaded by closing date and time.
Goods to be delivered within 30 days from receipt of official order.
